Each competition is different, first of all because we are everytime different and we have taken a different path to get prepared. Every competition leaves its mark and is a constant challenge with oneself to improve more and more. I have just returned from Spain where I won my 20th European ITF Taekwon-Do title. My first international competition was in 2002 and since then I have been lucky enough to travel and compare myself with athletes from all over the world in both Taekwon-Do and Kick Boxing. I won a lot but above all I had experiences that made me grow and get to know different realities. This is priceless. As an athlete and instructor I hope that in the future all athletes will have the opportunity to compete without having too many economic or political difficulties. Also my wish for every athlete is that he can always keep intrinsic motivation high to be able to overcome every challenge.
